Summary biography

Ian Harris is a clinician and researcher based in Sydney. He is an orthopaedic surgeon with a clinical interest in trauma care where his practice is based at Liverpool Hospital in southwest Sydney. He is Professor of Orthopaedic Surgery at the South Western Sydney Clinical School of UNSW Sydney and Honorary Professor at the School of Public Health, University of Sydney. His research activities are based at the Ingham Institute for Applied Medical Research and the Institute for Musculoskeletal Health. His research training includes a Master of Medicine (Clinical Epidemiology), a PhD in surgical outcomes and a Master of Science (Health Data Science).

Professor Harris's research interests are in surgical outcomes and the appropriateness of medical care. He conducts randomised trials, systematic reviews, cohort studies and methods studies. He was involved in several clinical registries, including co-chair of the ANZ Hip Fracture Registry (2012 – 2021) and Deputy Director of the AOA National Joint Replacement Registry (2015 – 2022).

Professor Harris has over 450 publications with an h-index of 72 (Google Scholar) and has received over $70 million in grant funding since 2012. He is a critic of many aspects of modern medical practice and is a campaigner for more science in medicine and in society. He published the book *Surgery, the Ultimate Placebo* in 2016 and a second book, *Hippocrasy: How Doctors Are Betraying Their Oath*, in 2021.

Qualifications

Bachelor of Medicine, Bachelor of Surgery
1986
University of New South Wales

Master of Medicine (Clinical Epidemiology)
2005
University of Sydney
Treatise: Publication bias in orthopaedics

Doctor of Philosophy
23 April 2007
University of Sydney, Faculty of Medicine, Discipline of Surgery
Supervisors: Dr Jane Young and Prof Michael Solomon of the Surgical Outcome Research Centre
Thesis: The association between compensation status and outcome after injury.

Master of Science (Health Data Science) with Excellence
2021

ENGG1811 Computing for Engineers, 2019.	Grade 87, HD
HDAT9100 Context of Health Data Science, 2020.	Grade 86, HD
HDAT9200 Statistical Foundation for Health Data Science, 2020.	Grade 78, DN
HDAT9400 Management and Curation of Health Data, 2020.	Grade 79, DN

Scientific Secretary
Australian Orthopaedic Association
2015 – 2019

Board Member
Australian Orthopaedic Association
2015 – 2019

Co-chair
ANZHFR: Australian and New Zealand Hip Fracture Registry
2012 – 2021

Director
ACORN: Arthroplasty Clinical Outcomes Registry National
2012 – 2019

Deputy Director
AOA National Joint Replacement Registry
2105 - 2022

Research and scholarly activities

Prof Harris' areas of research interest relate to surgical outcomes (trauma and elective, orthopaedic and non-orthopaedic), predictors of patient satisfaction after surgery, psychosocial factors predicting outcome after injury and surgery, systematic reviews and randomised trials of orthopaedic interventions, compensation research, and aspects of clinical epidemiology (including quality and safety) related to surgery.

Prof Harris has produced substantial, highly regarded research in the areas of trauma and orthopaedic surgery. His productivity has increased over time and he continues to produce regular publications of original research in peer-reviewed journals, including the BMJ, Lancet, JAMA and NEJM. His research activities have led to the following awards:

1. AOA Research Award (2012)
2. Member of the Order of Australia (2015)
3. Fellowship of the Australian Academy of Health and Medical Science (2016)
4. Research Australia Health Services Award (for ANZ Hip Fracture Registry, 2017)
5. Inaugural Daniel Comerford Medal (ACI NSW Health, 2021)
6. Lady Mary Fairfax Distinguished Researcher Award (2021)
7. Hamilton Russell Medal and Memorial Lecture (RACS) 2011
8. GJ Royal Medal and Memorial Lecture (Victorian Branch of RACS) 2016
9. President's Lecture Medal (RASC) 2017
10. Patrick Wall Lecture (NZ Pain Society) 2024
11. Phil Walker Memorial Lecture (University of Queensland) 2026

Prof Harris regularly acts as a faculty member and an invited speaker for professional and industry meetings nationally and internationally, and regularly teaches surgery and evidence based medicine to undergraduates and postgraduates.

According to Google Scholar (Feb 2026), Prof Harris has an h-index of 71, over 17,000 citations and over 500 publications.

Professor Harris has been an investigator on grants and scholarships worth over $68 million, including grants from NHMRC (Program, Project, Partnership and Centre for Research Excellence grants), MRFF and from not for profit, industry and professional research foundations.

Supervision of higher degree students

PhD completions: 17
Masters completions: 9

Master of Medicine (Clinical Epidemiology), University of Sydney
Agus Kadir
Researcher, Orthopaedic Department, Liverpool Hospital, 2004

Master of Surgery, University of Sydney
Hamish Rae
Researcher, Orthopaedic Department, Liverpool Hospital, 2005
Dissertation: Inter-observer reliability of the classification of proximal humerus fractures

Master of Surgery, University of Sydney
Alan Dao
Researcher, Orthopaedic Department, Liverpool Hospital, 2006
Dissertation: Factors influencing patient and surgeon satisfaction following hip and knee replacement

Doctor of Philosophy, University of Sydney
Darnel Murgatroyd
Motor Accident Authority, 2006 – 2016
Associate supervisor (Prof Ian Cameron, primary supervisor)
Thesis: The effect of compensation type on outcome after motor vehicle trauma

Doctor of Philosophy, UNSW
Sam Adie
2008 – 2013
Associate supervisor: Professor Jonathan Craig
Thesis: Outcome bias in surgical literature
* Sir Roy McCaughey Surgical Research Fellowship 2009 (RACS), $60,000
* Philip Segelov Award for Best Registrar Trauma Paper, AOA Annual Scientific Meeting, Cairns 2009

Doctor of Philosophy, UNSW
Victoria Ko
2008 – 2013
Associate supervisor: Justine Naylor
Thesis: Effectiveness of rehabilitation following hip and knee replacement
* UNSW Australian Postgraduate Award 2009 – 2011, $20,427 p.a.
* UNSW Research Excellence Award 2009 – 2011, $10,000 p.a.
* UNSW Rising Star Post Graduate Award 2009 – 2011, $3,000 p.a.

Doctor of Philosophy, UNSW
Rajat Mittal
2011 – 2018
Associate supervisor: Justine Naylor
Thesis: CROSSBAT; combined randomized and observational study of surgical in type B ankle fracture treatment.
* AOA Research grant 2010 – 2012, $35,337.50
* Avant Doctor in Training Research Scholarship 2015, $50,000
* RACS Foundation for Surgery John Loewenthal Research Scholarship 2015, $66,000

Doctor of Philosophy, UNSW

Mark Buhagiar
2012 – 2018
Primary supervisor: Justine Naylor
Thesis: HIHO: Hospital inpatient versus home program for rehabilitation after total knee replacement.

Master of Surgery, UNSW
Manit Arora
2012 – 2014
Job satisfaction in orthopaedic surgeons
* Dean's Award for Outstanding Research, 2013

Doctor of Philosophy, UNSW
Jane Wu
2012 – 2019
Primary supervisor: A/Prof Chris Poulos, Stephen Faux, Ian Harris
Thesis: Early rehabilitation after acute injury or illness
* RACP AFRM Research Development Scholarship 2013, $30,000
* School of Population Health Best PhD thesis Award

Doctor of Philosophy, UNSW
Michael Hennessey
2018 -
Primary supervisor: Louisa Jorm
Thesis: Analysis of state level data regarding primary and secondary cataract surgery

Doctor of Philosophy, UNSW
Yasser Khatib
2013 – 2021
Co-supervisor: Justine Naylor
Thesis: Mechanical and biopsychosocial predictors of outcome after total knee arthroplasty

Doctor of Philosophy, UNSW
Helen Badge
2013 – 2022
Co-supervisor: Justine Naylor
Thesis: Association between processes of care and outcome after hip and knee arthroplasty

Master of Surgery, University of Sydney
Abhinav Aggarwal
2013 – 2014
Patient preference for variables in hip fracture surgery

Doctor of Philosophy, UNSW
Deanne Jenkin
2014 – 2019
Co-supervisor: Justine Naylor
Thesis: Opioid-related benefits and harms in orthopaedic surgery

Doctor of Philosophy, UNSW
Andrew Lawson
2016 – 2023
Co-supervisor: Justine Naylor
Thesis: CROSSFIRE: Combined Randomised and Observational Study of Surgery for Fractures In the distal Radius in the Elderly
* UNSW Dean's Award for Outstanding PhD

Doctor of Philosophy, UNSW
Ian Ferguson
2017 – 2023
Primary supervisor: Anders Aneman
Thesis: The use of fentanyl and ketamine in induction for emergency intubation

Doctor of Philosophy
Sam Macdessi
2017 – 2021
Co supervisor: Ashish Diwan
Thesis: The interaction of alignment and balance in total knee arthroplasty and its influence on clinical outcomes
* Dean's Award for Outstanding PhD Thesis

Master of Surgery
Harry Constantin
2017 – 2018
Proportion of re-operations for peri-prosthetic femoral fractures that include revision surgery

Doctor of Philosophy
Sascha Karunaratne
Primary supervisor: Michael Solomon, Lyndal Trevena
2019 – 2025
Thesis: Appropriateness of total knee arthroplasty

Doctor of Philosophy
Verinder Sidhu
2018 – 2025
Co-supervisor: Sam Adie
Thesis: CRISTAL: a cluster-randomised, registry-nested crossover trial of aspirin versus low molecular weight heparin for venous thromboembolism prophylaxis in hip and knee replacement surgery

Doctor of Philosophy
Edel O'Hagan
2018 – 2022
Primary supervisor: James McAuley
Thesis: Public perception and education of back pain

Doctor of Philosophy
Natalie Pavlovic
2019 – 2024
Primary supervisor: Justine Naylor
Thesis: Weight loss for osteoarthritis

Doctor of Philosophy
John Farey
2019 – 2026
Co-supervisors: Sam Adie
Thesis: The use of dual-mobility design in reducing dislocation post total hip replacement

Doctor of Philosophy
Elizabeth Armstrong
2019 – 2025
Primary supervisor: Rebecca Ivers
Thesis: Models of care for hip fracture patient in low resource settings

Master of Surgery dissertation
David Abi-Hanna
2022
Co-supervisors: Jacqueline Close, Lara Harvey
Thesis: Trends in lumbar spine fusion surgery in older people: a retrospective population-based study

Master of Philosophy
Niamh Ramsey
2021 – 2022
Primary supervisor: Jacqueline Close
Thesis: Variation in care and outcome following hip fracture

Master of Surgery dissertation
Kai Lun
2023
Co-supervisor: Adriane Lewin
Thesis: quality and recommendations for VTE prophylaxis from clinical guidelines

Doctor of Philosophy
Emma Heath
2023 –
Primary supervisor: Ilana Ackerman
Thesis: Surgeon engagement in PROMs reporting in the AOANJRR

Professional organisations

AUSTRALIAN ORTHOPAEDIC ASSOCIATION

Prof Harris has been a member of the AOA since 1996. His main contribution has been organizing and contributing to scientific meetings, such as Continuing Orthopaedic Education meetings and state and national scientific meetings. Prof Harris has also produced patient education pamphlets for the AOA (Educational Materials, p. 13) and regularly teaches advanced trainees as part of the "Bone School" program. His official roles are listed below.

Secretary, Australian Orthopaedic Trauma Society
1998 – 2005

President, Australian Orthopaedic Trauma Society
2001 – 2005

Research Officer, NSW Branch, Australian Orthopaedic Association
2009 – 2015

Deputy Director AOA National Joint Replacement Registry
2015 – present

Scientific Secretary, Board member
2015 – 2019

Research Committee member
2016 – 2020

In 2012, Prof Harris was awarded the AOA Award for Orthopaedic Research

AO FOUNDATION

Prof Harris was the AO trustee representing Australia from 2002 to 2007 and was the chairman of AO Oceania over that time. He was a member of the Academic Council for AO and an ex-officio trustee from 2009 to 2011, and is currently a regional representative for AO Asia Pacific.

The AO (Arbeitsgemeinschaft fur osteosynthesefragen) was founded in 1958 by the developers of the modern methods, implants and instruments used in the internal fixation of fractures. It has expanded to include thousands of orthopaedic, craniomaxillofacial, neurosurgical and veterinary surgeons worldwide and is the largest international group of orthopaedic and trauma surgeons.

The AO Foundation is a non-profit organization that derives its income from course fees, and from intellectual property for implants and educational material produced by the members. Unlike industry sponsored groups, members are not paid for their work and receive no royalties or naming rights for implants that are developed. AO activities include education (books, courses, videos, web-based learning), research (laboratory and clinical), and the development of new surgical techniques (such as computer-assisted surgery) and implants (DePuy Synthes, the largest producer of orthopaedic trauma and spine implants, uses implants designed by the AO). The influence of the AO group in orthopaedics is such that virtually all orthopaedic surgeons in developed countries attend an AO course as part of their training. More information can be found at www.aofoundation.org.

Prof Harris's AO activities include: organising courses, journal and book editing, and supervision of AO fellows, who spend between 6 and 12 weeks at Liverpool Hospital. As the AO trustee for Australia (there are approximately 200 trustees worldwide, one for Australia) and chairman of AO Oceania, Prof Harris supervised all AO activities within Australia, which included supervising and convening several courses each year, in various medical specialties and in nursing, mainly pertaining to fracture management. Prof Harris continues to teach at AO courses in Australia and internationally, including Faculty Education Programs and is currently a member of the Regional Education and Training Committee for AO Trauma Asia Pacific.

ROYAL AUSTRALASIAN COLLEGE OF SURGEONS

Prof Harris' roles within the college (separate from AOA activities) are listed below. Professor Harris has also contributed to college activities on an ad hoc basis by participation in other committees, such as the state trauma committee and the current committee reviewing research requirements for trainees. In 2011, Professor Harris was the facilitator for a two-day retreat to develop strategic directions for the CCrISP course.

Education

Undergraduate

Conducting all-of-year lectures on trauma and fractures to Year 4 students at St. George Hospital, 1998 – 2003.

One lecture on fractures per term for Year 4 students at St. George Hospital, 1998 - 2003.

Student supervisor for orthopaedic rotation at Liverpool Hospital, 1998 – present. This includes tutorials, theatre supervision, meetings and regular lecture sessions, and students from UNSW and UWS.

Examiner for UNSW medical students, Liverpool Clinical School, 1998 – present.

Student supervisor for year-long Independent Learning Projects for UNSW students, 2009 – present (see above under Service, University).

Member of the Australian Musculoskeletal Core Competency Project, which aims to advance national health care standards by ensuring the delivery of world leading musculoskeletal education to the country's trainee medical professionals. The vision for the project is to have the defined musculoskeletal core competencies incorporated into the curricula of all Australian Medical Schools.

Preparation of and ongoing supervision of the curriculum for the ortho/trauma/rheumatology rotation for Phase 2 UNSW students (2010-2011).

Regular lectures and tutorials on surgery and orthopaedics to Phase 2 and Phase 3 students, UNSW (2010 - present).

Post-graduate

AUSTRALIAN ORTHOPAEDIC ASSOCIATION

Prof Harris has convened several courses and conferences for the AOA. As the president of the Australasian Orthopaedic Trauma Society of the AOA, he was responsible for organizing the trauma sections of the annual scientific meetings from 2001 – 2005.

Prof Harris has made a significant contribution to trainee education, both through the AOA and individual hospitals. He is a regular lecturer / tutor for Tuesday afternoon bone school session (AOA advanced surgical trainees). He was responsible for accredited and unaccredited registrar supervision at St George Hospital (1998 – 2003) and Liverpool Hospital. Prof Harris has been an invited speaker to several Australian and NSW Orthopaedic Registrars Annual Meetings, and is involved in annual pre-exam tutorials for advanced surgical trainees, orthopaedics. Prof Harris has supervised many registrars' research projects and Prof Harris has also contributed to the current learning modules for orthopaedic trainees.

Prof Harris has also supervised the following Orthopaedic Trauma Fellows during their 12 month attachments to his unit:

Robert Din	UK	2001
Fiona Muir	UK	2002
Ricaredo de la Costa	Cambodia	2003
Karel du Pre	Netherlands	2012/13

AO FOUNDATION

The AO foundation is the largest organization of orthopaedic and trauma surgeons in the world. More details regarding the AO Foundation can be found at www.aofoundation.org. The aim of the organisation is to improve the care of patients with musculoskeletal injury, and covers human and veterinary trauma, including craniomaxillofacial (CMF) surgery and spine surgery. Thousands of trauma surgeons from most countries of the world are members of the AO organization. The AO is run by a board of directors, and its activities are guided by an academic council, of which Prof Harris was previously a member.

AO activities include education, research, and development. The education activities are assisted by a group of professional educators. The AO has produced many books and manuals on trauma care, and on education in trauma care, and now has its own publishing house. The research activities are undertaken world-wide and vary from basic laboratory research to clinical studies. The research activities are controlled from the AO Research Institute in Switzerland, using funds from the AO Research Fund. Development activities are mainly centered on implants in trauma care. The AO group has designed many of the spinal, trauma, CMF and veterinary implants used in trauma centres in all countries, and have been responsible for many of the breakthroughs in fracture care over the last 50 years. The AO group was responsible for the popularization of internal fixation for long bone fractures that occurred in the 1960s and 1970s.

Prof Harris teaches in AO fracture courses worldwide. The AO courses are attended by all orthopaedic registrars in Australia, and most orthopaedic registrars world-wide. Over 230,000 surgeons and 120,000 nurses have been trained at AO courses since 1960, and currently, 20,000 surgeons are trained annually, worldwide. The courses range from the basics of internal fixation principles, through advanced courses, to masters courses and sub-specialty courses. Prof Harris

regularly teaches on these courses at all levels, locally and internationally and is also a teacher on the Faculty Education Program.

Prof Harris has been able to have Liverpool Hospital accredited at a recognized AO teaching institution, and has received many AO fellows at Liverpool. These fellows are funded to stay at the hospital for six to twelve weeks and attend clinics, rounds, and operating theatres, in order to gain further experience with the management of orthopaedic trauma. The following fellows have been supervised under this program:

Trygve Sovik	Norway	21/6/2000 to 4/8/2000
Amro Elgemizy	Kuwait	7/8/2000 to 29/9/2000
Dimitris Katsenis	Greece	5/11/2001 to 28/12/2001
Marco Trono	Italy	5/5/2003 to 27/06/2003
Imanol Gonzalez	Spain	3/11/2003 to 26/12/2003
Amar Dhakal	Nepal	19/01/2004 to 27/2/2004
Michael Wells	USA	8/6/2005 to 20/6/2005
Eric Staals	Italy	1/8/2005 to 22/9/2005
Paolo Razzaboni	Italy	31/10/2005 to 23/12/2005
Ashok Reddy	India	25/5/2006 to 6/7/2006
Jing Wei Zhang	China	4/9/2006 to 27/10/2006
Timothy Jenkins	Canada	12/3/2007 to 20/4/2007
Robert Allan Maples	USA	17/12/2007 to 18/1/2008
Dr Kwok Leung Tiu	Hong Kong	21/7/2014 to 29/8/2014
Jiahu Fang	China	6/7/2016 to 12/8/2016

ROYAL AUSTRALASIAN COLLEGE OF SURGEONS

Prof Harris is a regular faculty member of the CLEAR (Critical Literature Evaluation and Research) courses and the DSTC (Definitive Surgical Trauma Care) courses.

HOSPITAL

Prof Harris teaches junior medical officers and emergency department staff regularly at Liverpool and St George Hospitals

OTHER POST GRADUATE TEACHING

Prof Harris has taught at several other medical and allied health conferences and courses for Motor Accidents Authority specialists, WorkCover specialists, trauma specialists, general practitioners, physiotherapists and nurses.
